EDUCATION

Bachelor of Technology - Computer Science Engineering   2021-2025
HMR Institute of Technology and Management, GGSIPU, New Delhi   *CGPA: 7.67*

SKILLS

Languages:	C++, JavaScript, Typescript, SQL, Python, HTML, CSS
Frameworks/Libraries:	React.js, Next.js, Express.js, Node.js, Bootstrap, TailwindCSS, GIT
Databases:	MongoDB, MySQL
IT Constructs:	Data Structures & Algorithms, DBMS, CN, OS, OOPS
Soft Skills:	Problem Solving, Self-learning, Adaptability

EXPERIENCE

NullClass   Remote   Link
Full Stack Web Developer Intern   *Nov'2023 – May'2024*

- Partnered with design team to introduce 15+ visually captivating UI/UX elements; boosted user engagement by 25%, leading to higher retention rates and improved user satisfaction
- Engineered and launched new subscription plans with Razorpay payment gateway integration; boosted subscription sign-ups by 20%, increasing monthly recurring revenue and improving customer retention by 15%
- Engineered a custom video player with innovative gesture-based controls, significantly enhancing user interaction by 30% and boosting average session duration by 25%
- Developed and maintained over 10 backend API packages, significantly enhancing functionality and reducing development time by 15%.
- Spearheaded backend integration with Node.js and Express.js, optimizing dynamic content delivery and data processing, resulting in a 25% performance improvement and a 10% reduction in server response time.

PROJECTS

TheMordernMarket | *React.js, Express.js, Node.js, MongoDB, Bootstrap*:   Link

- Authentication: Implemented secure user authentication with distinct panels for admin and users.
- Order Tracking System: Established a comprehensive order tracking system to monitor and manage customer orders efficiently.
- CRUD Operations: Built robust Create, Read, Update, and Delete (CRUD) operations for products and categories.
- Payment Gateway Integration: Integrated BrainTree Payment gateway to facilitate seamless and secure transactions.
- Product Search and Filtering: Designed advanced product search and filtering functionalities to enhance user experience.

Razorpay | *HTML, Tailwind CSS, JavaScript*   Link

- Created a Razorpay website UI clone using HTML, Tailwind CSS, and JavaScript, demonstrating proficiency in front-end development.
- Implemented a fully responsive design, ensuring optimal performance across various devices and screen sizes.

ACHIEVEMENTS

- Consistently solving DSA problems with a maximum streak 220 days on Leetcode and 32 days on GFG
- Solved around 400+ DSA problems across Leetcode and GFG
